Sending Your Scores

Sending Your Scores to Schools is Quick, Easy, and Free.

Using your parent/guardian SSAT account, you may add or cancel/remove schools/score recipients online anytime, free of charge. Please note that once scores have been released, designated recipients cannot be canceled.

To select schools/score recipients at registration:

Search for and select the name of the school(s) during your test registration. If you prefer to see your scores before sending them, you may submit your registration with no score recipients listed and add them later.

In the parent/guardian account, click on "SSAT Scores" (scores may only be sent using the parent account, not the student account)

The SSAT Test Options Practice Character Snapshot Apply Alerts Register/L In

student is registered. Click the plus sign to expand information for the test scores you're sending.

Search and add score recipients

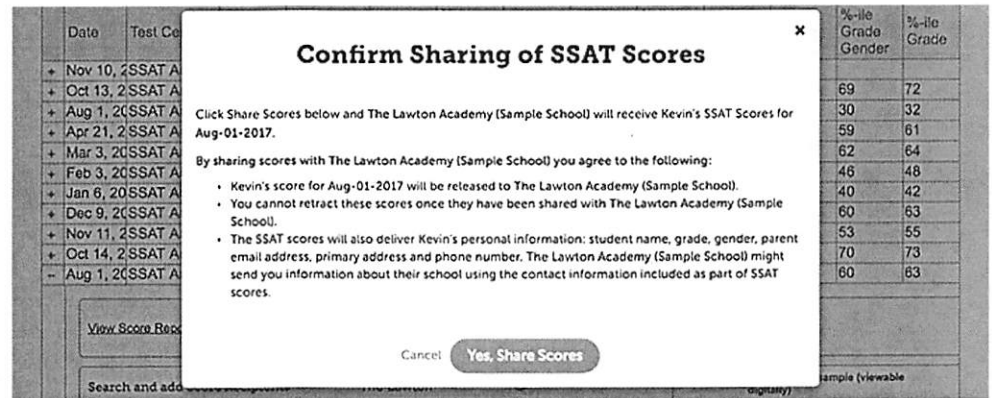

Once the test date is expanded, use the search function to type in the name of the school you want to add. As you type, name suggestions will appear below the search box. Find the correct school and click "Add". Please note that many school names are similar - be sure to check the address carefully to ensure you choose the right school. Additionally, some schools spell out words like "Saint" and some abbreviate ("St."). If you can't find a school, try spelling the name a different way.

Note: To remove a school/score recipient: Score recipients you have already selected are listed under the expanded test tab. Click on the "Remove" link next to the school you wish to remove. **Score recipients may only be removed before scores are released.**

Confirm Recipient Selection

Click "Yes, Share Scores" to add this school to your recipient list for this test's scores.

Selection Confirmation

That's it! If scores have been released, the school will receive your scores immediately. If not, they will be sent on the school score release date, just prior to when they are released to you. If you'd like to start an application and the school accepts the Standard Application Online, you can easily do so right from the confirmation screen!
